Dear all,

Have did some testing

There are two place to upload photo.

1. The first button next to Upload/ Insert
2. The image icon inside the the editor

I usually use the first one because it more straight forward

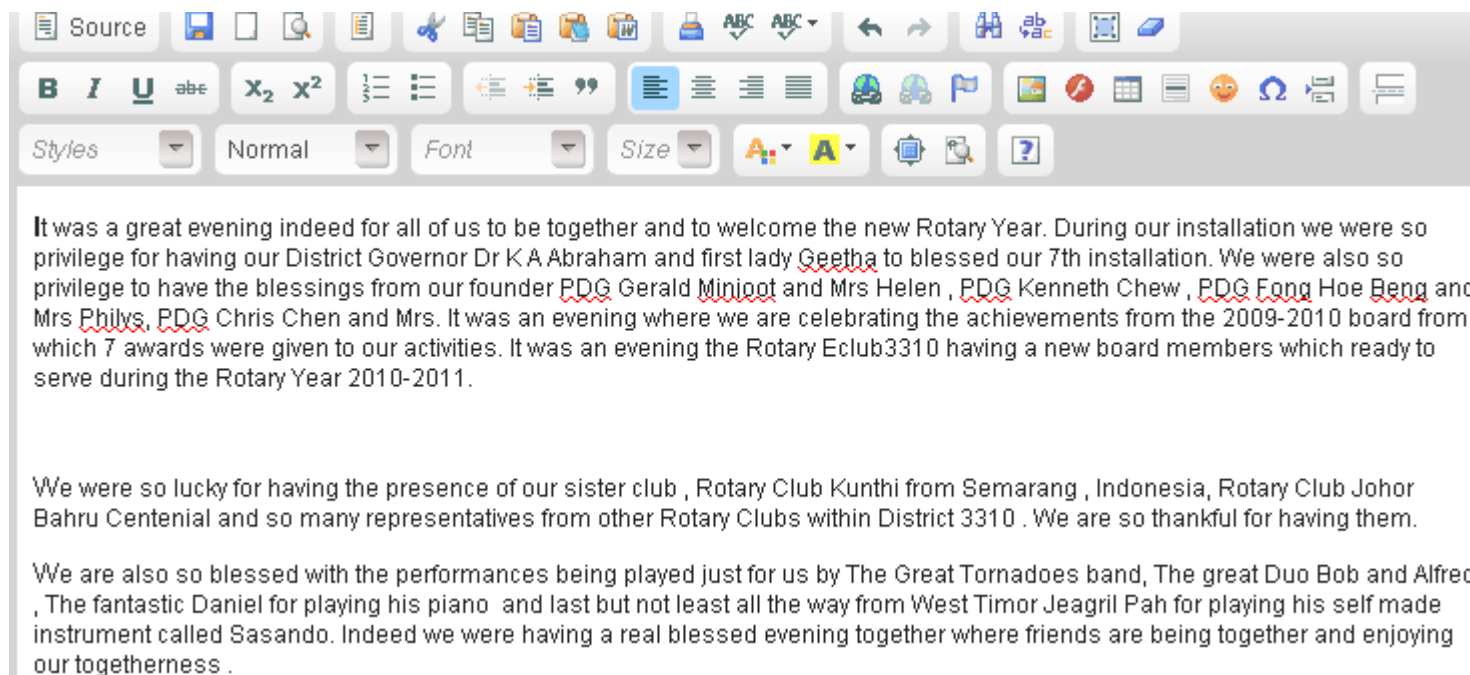

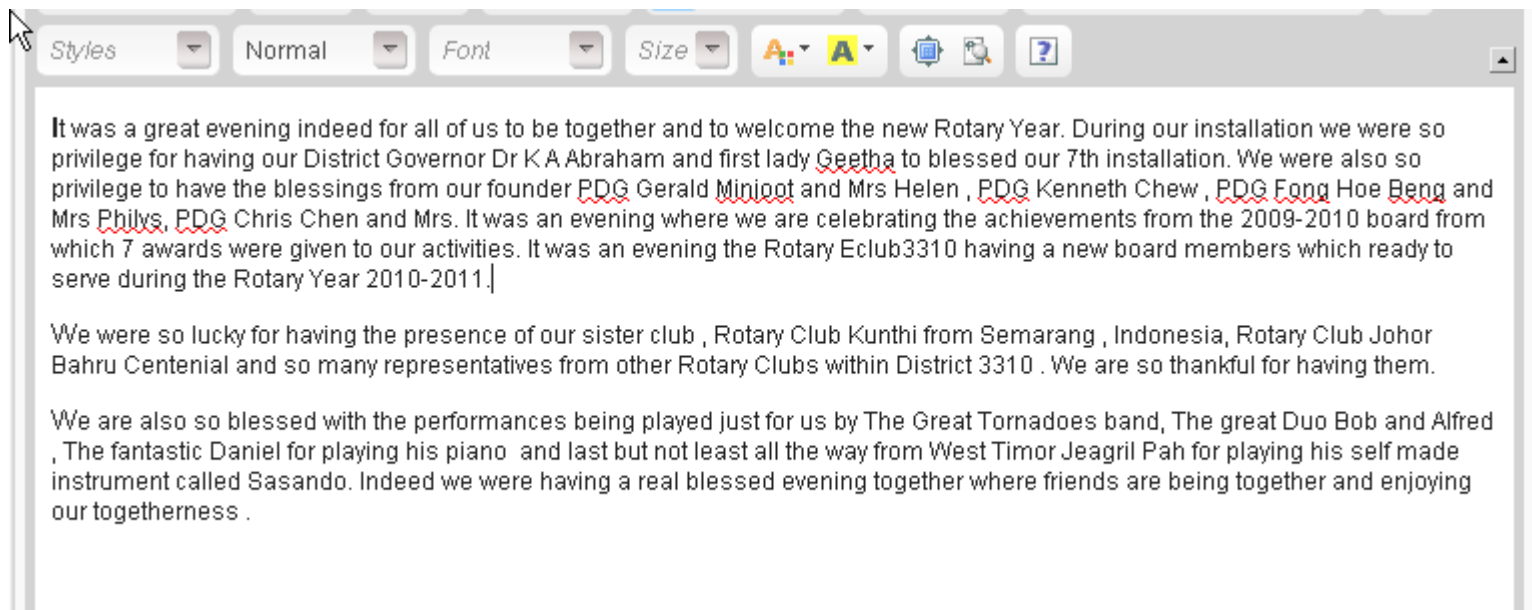

Usually if I need to add photo as in a new line without any alignment, i Enter first to give a space between two paragraphs. And after upload the photo, i choose None in the alignment setting

That one should do the trick

Rgds,

Caremy

our installation we were so privilege for having our District Governor Dr K A Abranam and first lady Geetha to blessed our 7th installation. We were also so privilege to have the blessings from our founder PDG Gerald Minjoot and Mrs Helen , PDG Kenneth Chew , PDG Fong Hoe Beng and Mrs Philys, PDG Chris Chen and Mrs. It was an evening where we are celebrating the achievements from the 2009-2010 board from which 7 awards were given to our activities. It was an evening the Rotary Eclub3310 having a new board members which ready to serve during the Rotary Year 2010-2011.

We were so lucky for having the presence of our sister club , Rotary Club Kunthi from Semarang , Indonesia, Rotary Club Johor Bahru Centennial and so many representatives from other Rotary Clubs within District 3310 . We are so thankful for having them.

Dear Budi,

We will check on the script tomorrow.

You did very well, and i am sure after we sort this out, you will be able to upload more....

tq
clarence.

Thank you Clarence

But actually I was placing all of the picture on the center (not right aligned)

I will do my best to up date the web

Regards

Budi

Subject: Re: web appearance

Dear Budi,

I have made some adjustments to the post..

The pictures were all set to <right align>, and that causes the captions/text under the picture not aligning properly. I removed the right align and now is all displaying in order.

For all the pictures, try to set the size to the same width.. (for this post, i set it to 500 width)

Both orphanage wordpress and eclub wordpress are from the same family, so the method to upload post should be the same.

Pls do let me know if you have other ideas to improve.
tq
clarence.

Subject: web appearance

Dear Clarence

It is urgent that we can up load the pictures and to place them properly.

Please have a look at our orphanage's web (www.roslinorphanage.org)

The system is the same but I cannot up load into the Eclub's web like what I can do on our orphanage's web

Is it because of the division of the page into so many pages ?

Please let us know how so we can make a proper up load

I will take down again my 4 hours work rather than to look so messy

Regards

Budi
